## G Capital unit seals power purchase agreement with TNB

**KUALA LUMPUR:** G Capital Bhd has entered into a renewable energy power purchase agreement with Tenaga Nasional Bhd (TNB) that is estimated to generate more than RM400 million revenue over 21 years.

G Capital said its subsidiary, Gunung Hydropower Sdn Bhd, had on Aug 12 signed the agree-

ment with TNB for a 21-year feed-in-tariff (FIT) concession.

The company said the agreement involved the 10-megawatt low-head mini-hydropower plant off Sungai Perak in Salu.

G Capital executive director Tan Sri Dr Ali Hamsa said the agreement signified a vote of confidence in Gunung Hydropower

and G Capital to advance to the next level of completing and commissioning the plant.

"The potential revenue of more than RM400 million is based on the FIT rate of 29 sen per kilowatt-hour and estimated annual production of 68-gigawatt hours of electricity to be generated from the plant," he said yesterday.
