## TNB rolls out smart meters in Melaka, Klang Valley

**KUALA LUMPUR:** Some 1.5 million Tenaga Nasional Bhd (TNB) account holders in Melaka and the Klang Valley will be equipped with smart meters by the end of the year. TNB Advanced Metering Infrastructure project director Mohamed Ghous Ahmad said 1.06 million smart meters had been installed in both areas. "Through the incentive-based regulation, TNB has been given an allocation to install 1.5 million smart meters by the end of the year. Based on the number of smart meters that have been installed, we are confident the rest will be installed by the end of the year." Ghous said TNB was in the process of obtaining additional allocations from the federal government to provide smart meters to all the three million TNB subscribers in the Klang Valley. **Bernama**
