POWER RESTORED TO PENANG BRIDGE

GEORGE TOWN: Power supply on the Penang Bridge has been fully restored after repairs were made to a damaged cable which was identified as the cause of last Friday's power failure. PLUS strategic stakeholder engagement head Syed Mohammed Idid said power supply returned to normal at 3.19am yesterday. "Our investigations showed that damage to the cable had caused power supply on the bridge and toll plaza to be cut off on Friday. However, the cable has been repaired and operations are now back to normal," he said in a statement. He added the latest information on traffic conditions is available on Twitter @PLUS Trafik or PLUS apps. – Bernama
