Splash restructuring, takeover to be resolved

SHAH ALAM: The restructuring and takeover of Syarikat Pengeluar Air Selangor Sdn Bhd (Splash) are expected to be resolved early next month.

"I have summoned representatives of agencies and the Selangor menteri besar (Amirudin Shari) to discuss the takeover of Splash," said Water, Land and Natural Resources Minister Dr Xavier Jayakumar at the launch of PKR's main operation centre for the Sungai Kandis by-election.

"The process is almost 80 per cent complete and is expected to be resolved before Aug 10."

However, Xavier said he could not reveal the cost of the takeover, pending an announcement on the matter.

It was reported that the process of restructuring the state's water industry had been put on hold because of disagreements between the then Pakatan Harapan state government and the previous Barisan Nasional Federal Government.

The state government, led by then menteri besar Datuk Seri Azmin Ali, had rejected a proposal for the state government to bear 40 per cent of the cost and the ministry to pay 60 per cent.
