## Water disruption hits 35,000 Muar households

**JOHOR BARU:** Water supply to 35,000 households in the Muar district was disrupted after a high level of ammonia was detected in Sungai Muar on Wednesday. State International Trade, Investment and Utilities Committee chairman Jimmy Puah Wee Tse said the state government was investigating the cause and source of the contamination. "The situation has stabilised. I hope users can bear with the situation and we will work round the clock to ensure full recovery (in supply) to affected areas." Water services operator SAJ Ranhill Sdn Bhd said water supply from the Panchor 3 water treatment plant had been reduced by 20 per cent due to the poor quality of raw water from Sungai Muar. **Bernama**
