Water supply disruption in Gombak, KL

KUALA LUMPUR: A total of 120 areas in Gombak and 57 other areas around Kuala Lumpur involving 119,630 customers will experience water supply disruption for 23 hours beginning tomorrow.

Pengurusan Air Selangor Sdn Bhd said this was due to emergency maintenance to replace a sluice valve at the Kepong Estate Water Pool.

"Air Selangor is issuing this notice so customers can make arrangements ahead of the temporary interruption for 23 hours following the repairs, which will begin at 9pm on Thursday," said customer relations and communications department chief Abdul Raof Ahmad.

He said water supply would resume when repairs were completed. It is expected to fully recover by 8pm on Friday.

Those affected are advised to store adequate water. Air Selangor will be mobilising water tanks, prioritising premises with critical and urgent requirements.

Customers may request for the emergency assistance via WhatsApp to 019-281 6793 or 019-280 0919.

The Air Selangor customer service centre may be contacted via the number 15300. — Bernama
