### Water supply to Perak district fully restored

**IPOH:** Water supply in most parts of Kerian district in Perak, which were affected following contamination at the raw water source on Tuesday morning, has been restored. Perak Public Amenities, Infrastructure, Agriculture and Plantation Committee chairman Datuk Abdul Yunus Jamhari said the water treatment plant in Jalan Baru had resumed operations from 3pm on Tuesday. "Clean water supply has been distributed to consumers in stages and restored fully by late night." On Tuesday, most areas in the Kerian district suffered water shortages starting at 8am after water supply to about 19,000 consumer accounts were found to be contaminated.
